Superintendent of Schools

October 26, 2021

Dear Babylon Families,

The district has been made aware of disturbing allegations regarding one of our employees. The district does not tolerate misconduct and takes all allegations of such very seriously. Due to privacy laws, school districts are limited in the information we can release regarding this matter. We can confirm an internal investigation is currently underway and the employee in question was immediately reassigned to home.

We understand you have questions and concerns. We, too, have those questions and concerns. We are doing our due diligence to ensure an accurate and appropriate investigation is completed based on information from cooperating witness interviews and written statements, not rumors.

In the meantime, the district is actively vetting appropriate candidates, one who will be recommended to assume the teaching responsibilities of the classes shortly. We appreciate your patience as we complete this important work. Thank you.

Sincerely,

Linda J. Rozzi

Superintendent of Schools
